Should any fault due to bad design, workmanship or materials be proven at any time within the prescribed warranty period, Codan will, subject to the terms of this warranty as set out below, remedy such fault free of charge provided the equipment is returned, carriage paid, to Codan or to a service centre authorised by Codan.

The prescribed warranty period for equipment manufactured by Codan is three (3) years after shipment from the factory. In addition, where Codan (or a service centre authorised by Codan) repairs equipment or supplies spare parts, the prescribed warranty period for the repaired equipment or spare parts is three (3) months after shipment to the customer.

This express warranty shall not extend to any abuse, accident or improper installation, connection, adjustment or use of goods otherwise than in accordance with instructions issued by Codan.

Subject to the matters set out in this express warranty, no liability expressed or implied, is accepted for any consequential loss, damage or injury arising as a result of any fault in the goods.

This express warranty does not extend to goods supplied by Codan, which are not designed or manufactured by it. Codan will, however, make reasonable endeavours to ensure that the purchaser receives the full benefit of any warranty given by the manufacturer.

This express warranty is valid for goods purchased from Codan anywhere in the world. Warranty service will be provided in accordance with this express warranty in any country of the world where there is a service centre authorised by Codan.

The benefits conferred by this express warranty are in addition to all other non-excludable rights and remedies which the consumer may have under the Australian Trade Practices Act and any similar laws in Australia or elsewhere. To the extent permitted by law, Codan's liability for any non-excludable condition or warranty is limited to (at Codan's option):

# Battery Cell Warranty

**Codan Limited ('Codan') warrants that all batteries supplied by Codan will be free of faults arising from defects in design, workmanship or materials in accordance with this express warranty.**

In addition to Codan's International Product Warranty period and conditions, the following conditions apply to battery cells supplied by Codan.

Codan warrants the Nickel Metal Hydride (NiMH) battery cells to be free from defects in material and workmanship for a period of three (3) years after shipment from the factory.

The liability of Codan under this warranty shall be limited to the repair or replacement free of charge of NiMH battery cells or SLA battery cells provided notification of such failures or defect is given to Codan immediately upon the same becoming apparent.

This warranty does not extend to cover defects in the battery cells that are due to fair wear and tear, negligent use, tampering, improper handling, improper use, improper operation, improper storage, improper battery management or where the batteries have not been charged, discharged or serviced as per Codan's instructions. Note that battery cell capacity reduces through time and usage and that this is normal. The degree of reduction depends upon the battery cell type.
