

COMMERCIAL PRODUCT CATALOG

VIDEO SECURITY & ACCESS CONTROL SOLUTIONS

Motorola Solutions has created the mission-critical ecosystem built for commercial business. It shares knowledge across your entire operation to enable powerful collaboration, streamline workflows and drive performance. A single platform — where communications, software, video and services operate seamlessly together — to reveal the insights which drive meaningful change.

LMR MISSION CRITICAL COMMUNICATIONS

SAFETY REIMAGINED

VIDEO SECURITY & ACCESS CONTROL

COMMAND CENTER SOFTWARE

MANAGED & SUPPORT SERVICES

With high-definition cameras that continuously scan, analyze and learn from their environment, you get unprecedented visual detail combined with situational awareness to inform the best response.

At Motorola Solutions, we create a safe world.

RISK GROWS IN THE GAPS

SOLUTIONS FOR COMMERCIAL BUSINESS

The lack of visibility to what's happening in your business creates inefficiencies, leads to poor decision making and allows risk to thrive. We're shaping the future of business with an adaptable network of cameras with built-in intelligence to bring forward the information enterprise needs to do its work.

Fixed and mobile security solutions capture the critical details that our integrated analytics platform scans to identify the relevant information to share across the organization.

When analytics work for you to identify patterns, hotspots and unusual activities, you have the knowledge to protect your business and grow. Our vision is to turn the masses of data that video networks capture into a powerful engine of unprecedented insights and data-driven decision making. So resources are better deployed, performance is driven, and risk is removed.

FIXED CAMERAS

Motorola Solutions offers a complete video security solution, with cutting-edge camera and sensor technologies that are embedded with features such as smart analytics to help focus your attention on the events that matter most. Our fixed camera portfolio includes cameras and technologies for any application, from 1−61 MP resolution in fixed, moving and multisensor options, to infrared (IR) and LightCatcher™ technology to help you see more in dark environments, to a 360-degree view for broad coverage with fewer cameras.

H5 PRO CAMERAS

The new Avigilon H5 Pro Camera Line captures the best-in-class image details over vast areas, providing maximum coverage options through our most powerful and innovative ultra high definition cameras yet.

VIDEO INFRASTRUCTURE

Whether you need a couple of cameras to monitor a storefront or thousands of cameras to secure a large campus, using a complete Avigilon solution helps take the risk out of deployment and maintenance. Avigilon Network Video Recorders (NVRs) and appliances are pre-configured for enhanced system performance and to save you time during deployment.

NVRS & WORKSTATIONS

All models come with high-performance recording technology, a three-year Avigilon warranty with dedicated support and added features for your security needs.

LEARN MORE

- 1 Optional, transceivers not included.
- 2 These performance figures are based on validation testing by Avigilon, using Avigilon Control Center $^{\text{\tiny{M}}}$ software version 7.6.4. Assumes appliance-wide average per camera rates of classified objects leaving the field of view:
- H5A cameras: one every second
- H4A cameras: one every two seconds
- Non-analytics cameras running Classified Object Detection: one every second

Additional licenses may be required. For more information, contact Avigilon Sales.

Part number varies based on total storage capacity (9).

 $^{^{3}}$ Assumes a 3 MP camera with 1 MP license plate scan area and Frames Per Second (FPS) to recognize license plates up to vehicle speeds in Kilometers Per Hour (KM/H) or Miles Per Hour (MPH). Results may vary according to camera mounting parameters. LPR does not require an Analytics Kit.

NVR4X PREMIUM FIPS SERIES

Pre-hardened FIPS-compliant Network Video Recorders provide secure, reliable and scalable platforms for high performance end-to-end security solutions to meet FIPS 140-2 Level 2 Security Requirements and protect data-at-rest.

Warranty	5 year warranty					

KEY FEATURES Embedded Video Management Software Low Voltage Operation Solid-State Drive Remote Notifications Shock & Vibration Tolerant Isolated Digital I/O High Temperature Range **LEARN MORE**

¹ Analytics features are included by default with the addition of ACC camera licenses.

AVIGILON VIDEO ARCHIVE

Cost-effective storage option that provides a path for expanding video archives incrementally over time, delivering exceptional reliability with near-zero downtime.

SPECIFICATIONS

MODEL NAME	AVIGILON VIDEO ARCHIVE					
PART NUMBER	AVA-HED1- C TB1			AVA-EXP1- C TB1		
Storage Capacity (TB) 🕒	225 488 751 263 526				789	
Form Factor	5U					
Max. Number of NVRs Connected	4 per Head Unit when attached directly; 12 per Head Unit when using 2 network switches ²					
Redundancy	Erasure coding					
Connectivity	iSCSI					

LEARN MORE

- ¹ Head units house the controllers that connect either directly with up to 4 NVRs or indirectly with up to 12 NVRs using 2 network switches. Expansion units need to be installed in the same rack and connected to Head Units to expand the capacity up to 1.5PB.
- 2 12 NVRs must be connected through 2x 10GbE SFP+ network switches to ensure redundancy. The switches are not sold by Avigilon and should be sourced by the customer. Each switch must support at least 12x Downlink ports (1 per NVR) and 4x Uplink ports.

Part number varies based on total storage capacity (9).

REMOTE MONITORING WORKSTATIONS

An easy way to add high-resolution monitoring stations to existing systems. Select either a two- or four-monitor workstation, pre-loaded with ACC software.

ENTERPRISE-GRADE PRIVATE BROADBAND

Nitro by Motorola Solutions is the first fully-managed Citizens Broadband Radio Service (CBRS) platform that combines private broadband data with business-critical voice, delivering enterprise-grade private LTE that is easy-to-deploy and outperforms Wi-Fi. Nitro's integration with Avigilon video security cameras provides large, remote or dense sites with greater video coverage, reliable performance, and robust data security and privacy.*

NITRO

Designed to be deployed like a Wi-Fi network, Citizens Broadband Radio Service Devices (CBSDs) are mounted in desired locations and connected to other network gear typically racked in a central location. Avigilon camera connectivity into a Nitro network requires a fixed, third-party OnGo device containing a Nitro SIM card to gain network access and bridge the camera's ethernet communication capability with the network's CBRS wireless protocol.

SYSTEM COMPONENTS

DEVICE IMAGE	DEVICE NAME	DEVICE TYPE	PART NUMBER	DESCRIPTION
	SLX 2000	CBSD (Access Point)	AAE20048ENA1AN	Indoor CBSD 3550-3700M 250mW Includes: CBSD with 64 active stream support, wall/ceiling mount hardware, integrated 8dBi antenna, copper ethernet or fiber backhaul, POE++ or 12V DC input, integrated GPS receiver, PTP license.
	SLX 4000	CBSD (Access Point)	AAE40048ENB2AN	Outdoor CBSD 3550-3700M 316mW. Includes: CBSD with 64 active stream support, pole/wall mount hardware (including adapter bands), copper ethernet backhaul, DC -40 to -57V, 10m DC power cable, GPS antenna for direct mount.
	SLN 1000	Two-Way Radio	HK2120A	Purpose-built CBRS radio, delivering highly reliable broadband push-to-talk. Featuring a built-in Wi-Fi hotspot, the SLN 1000 helps you get the most out of legacy radio equipment, while taking advantage of CBRS mobility and security.
	JUNIPER SRX 345 FIREWALL	Firewall/Router (two (2) required)	T8577A	All Nitro networks require a minimum of one (1) SRX 345 for connectivity to the Nitro Cloud Core. Connection will be through the customer-provided Internet connection. Redundant links and/or redundant configurations are supported, additional switching not included.
	HPE ProLiant DL20 Gen10 Server	OnPrem Edge Gateway	SQM01SUM0319A	Includes: Nitro On-Prem Edge Gateway hardware (HP DL 20 appliance), NA AC power cord, and software. If redundancy or expansion is required, order a quantity of two.
	uFalconSTG PTP Bundle	PTP Timing Source	DSBNDLMS12	Includes: uFalconSTG PTP, AC/DC Power Adapter, and a rack mounting shelf. All Nitro CBSDs require a timing source, either PTP or GPS. The uFalconSTG PTP provides PTP timing for up to 32 CBSDs, AC/DC power adapter and the rack mounting shelf items detailed below.
N/A	Expansion uFalconSTG PTP with AC/DC adapter	PTP Bundle	DSBNDLMSI21	Includes: PTP server with the AC/DC power adapter and is appropriate when a second co-located PTP server is required (i.e. expansion or redundancy).
N/A	EDGE TIMING MASTER	PTP Accessories	DSMFALCONST8SEGHOC	This is an expansion uFalconSTG PTP server that can be purchased to have redundancy in a network, if a network is being expanded beyond 32 CBSDs or if a spare PTP server is desired. The DSBNDLMSI2 bundle already includes a uFalconSTG PTP server.

*Nitro parts are sold by Motorola Solutions. To resell Nitro, an Avigilon Partner must apply to become a Motorola Solutions Partner: partnerapply.motorolasolutions.com

BODY-WORN CAMERAS

Commercial organizations need a mobile video security solution that protects people and proves professionalism. Next-generation body-worn cameras from Motorola Solutions capture high-quality audio and video from the wearer's perspective. Seamless integration with existing video management infrastructure via WiFi enhances situational awareness in the control room, delivering a powerful new narrative and enabling a smarter response.

VT100 CAMERAS

Designed to complement your current security function, providing additional body-worn protection to staff throughout any organization. Available for global use in commercial applications.

MODEL NAME		VT100	
PART NUMBER	VT-100-N		
	Dimensions (H x W x D)	3.1 x 2.0 x 0.9 in (80 x 51 x 22 mm)	
Features	Weight	2.54 oz (72 g)	
reatures	Charging	Up to five hours from fully flat battery	
	Bluetooth	No	
	Recording Storage	16 GB	
	Recording Time	Up to three hours	
Video	Battery On Standby	Six months	
Video	Battery Type	Lithium-lon	
	Horizontal Field of View	130 degrees	
	Peer-Assisted Recording	No	
	WiFi Specification	802.11 b/g/n (2.4 GHz & 5 GHz)	
WiFi	WiFi Security	WPA2-PSK	
	WiFi Streaming	640x360 15 fps. Compatible with ONStream.

VB400 CAMERAS

Ruggedized camera with advanced recording and communications features enabling security professionals in commercial organizations to perform their best when it matters most.

SPECIFICATIONS

MODEL NAME		VB400
PART NUMBER		VB-400-64- F -N
	Dimensions (H x W x D)	2.7 x 3.5 x 1.04 in (68 x 89 x 26.6 mm)
Features	Weight	5.7 oz (162 g), plus mounting
reatures	Charging	Up to eight hours from fully flat battery
	Bluetooth	BT 2.1 + EDR, BLE 4.2
	Recording Storage	64 GB
	Recording Time	Up to 12 hours
Video	Battery On Standby	48 hours
video	Battery Type	Lithium-Polymer
	Horizontal Field of View	120 degrees
	Peer-Assisted Recording	Within 32.8 ft (10 m) of another device
	WiFi Specification	802.11 a/b/g/n (2.4 GHz & 5 GHz)
WiFi	WiFi Security	WPA2-PSK
	WiFi Streaming	640 x 360, 25 or 30 fps
FIVING AND MOUNT OPER	NIO G	
FIXING AND MOUNT OPTIO	INS (F)	
QR	Quick Release Fixing	Suitable for attaching to the quick release fixing options

FIXING AND MOUNT OPTION	NS (F)	
OR	Quick Release Fixing	Suitable for attaching to the quick release fixing options
KF	Klick Fast Harness	Suitable for directly attaching to the klick fast fixing options
VF	Close-Fit Mount	Suitable for attaching to the close fit mount options

RFID Readers and accessories are compatible with VT100 & VB400 body-worn cameras

DOCKCONTROLLER

Simultaneously manage up to 84 body-worn cameras while also assigning them to operators using VideoManager software.

SPECIFICATIONS

MODEL NAME		DOCKCONTROLLER	
PART NUMBER	NUMBER DC-200/ R		
	Typical Usage	Connected to VideoManager over Ethernet, with multiple docks attached via USB	
General Information	Management Software	VideoManager	
	Warranty	1 year return to manufacturer warranty	
Size & Weight	Dimensions (H x W x D)	6.1 x 5.3 x 1.5 in (154 x 136 x 37 mm)	
Size & Weight	Weight	23.3 oz (660 g)	
Scalability	Body-Worn Camera Support	Connect up to 84 body-worn cameras to one DC-200. Ideal for use with 14-port docks. Can also be used with up to 4 individual 1-port docks.	
	Unlimited VideoManager Connectivity	There is no limit on the number of DC-200s that can be connected to an instance of VideoManager	
	Operating Temperature	32 to 104 °F (0 to 40 °C)	
	Storage Temperature	-67 to +158 °F (-55 to +70 °C)	
Technical Specifications	Input Voltage (to supplied external power supply)	100 - 240V, 47 - 63Hz	
	Maximum Power Consumption	20W	
	High-Speed Footage Downloads	Gigabit Ethernet Port (1000/100/10 mbps) for rapid footage download and body-worn camera assignment	
	RFID-Compatible	Attach an RFID reader to one of the DC-200's USB ports to enable quick body-worn camera assignment	
Connectivity	Bandwidth Restrictions	Apply bandwidth rules to individual DC-200s to control how much footage is uploaded to VideoManager, and when	
	High-Priority Configuration	Prioritize certain DC-200s to ensure that their footage is downloaded to VideoManager first	
	Slow Connection Configuration	DC-200s with this setting enabled will continuously try to offload footage to VideoManager, ignoring the bandwidth limit	
	Shared Bandwidth Groups	Add multiple DC-200s to one bandwidth group to ensure that the bandwidth limit is shared equally between them

LICENSE PLATE RECOGNITION SOLUTIONS

License plate recognition (LPR) systems from Motorola Solutions aren't one-size fits all, but rather designed for specific environmental needs. Our purpose-built applications for enterprise ensure your data is actionable and secure. Add an unmatched layer of efficiency to your parking and security operations with license plate recognition detections, patented vehicle location analytics and plate-based enforcement tools.

H4 LICENSE PLATE CAPTURE (LPC) KIT

Uses IR illumination, visible light filtering and license plate recognition analytics to capture license plates at typical vehicle speeds in varying lighting conditions.

SPECIFICATIONS

MODEL NAME	H4 LPC	
PART NUMBER ¹	3.0C-HD-LP-B1	
Resolution	3 MP	
Image Sensor (progressive scan CMOS)	1/2.8"	
Max. Dynamic Range	-	
Maximum Capture Speed	100 km/h (62 mph)	
Max. IR Illumination Distance (single lane / dual lane)	30 m (100 ft) / 14 m (46 ft)	
Environmental	IP66 weather rating ²

AUDIO, POWER & STORAGE

Audio Compression Method	G.711 PCM 8 kHz
Audio Input/Output	Line level input/output
External I/O Terminals	4 alarm in, 2 alarm out
External Power Source	VDC: 12 V, VAC: 24 V
PoE Power Source	IEEE802.3af Class 3 compliant
Onboard Storage	SD/SDHC/SDXC slot (minimum class 4, class 6 or better recommended)

¹ This is the part number for the camera module only.

Please see accessories page for enclosure and IR illuminator.

² This is outdoor rated - the kit includes enclosure.

VIDEO MANAGEMENT SOFTWARE

Whether you're monitoring video from fixed cameras or your suite of body-worn cameras, our video management solutions provide the control and Al-enabled tools to help ensure critical events do not go unnoticed.

ACC 7 SOFTWARE

Powerful software doesn't have to be complicated. ACC software leverages AI technology to give you control over your video security and focus your attention on what matters most. Use it with Avigilon cameras and sensors and/or leverage existing assets by using it with third-party devices.

ACC 7 SOFTWARE

STANDARD FEATURES

- · Automatic device discovery
- Support for third-party ONVIF compliant cameras and encoders including dual streaming
- Support for H.265, H2.654, MPEG4, MJPEG and JPEG2000 codecs
- HDSM[™] and HDSM SmartCodec[™] technology support
- ACC Mobile application
- Video analytics overlays
- · Light and dark user interface themes
- Unusual Motion and Activity Detection timeline filtering with Skip Play

- Intelligent Motion, thumbnail and event search
- Two-factor authentication and emergency privilege override
- Two-person authenticated recorded video viewing
- Avigilon Cloud Services web client
- FIPS 140-2 encryption
- Occupancy Counting analytics
- Social Distancing analytics
- Multi-camera export
- · System & motion event email notifications

AVIGILON CLOUD SERVICES

The Avigilon Cloud Services (ACS) platform connects your ACC sites to the cloud and enables secure access to your system from anywhere using an internet browser. Operators can review live and recorded video as well as monitor the health of all cloud-connected ACC sites, including critical components such as cameras and servers.

SPECIFICATIONS

	Anywhere Access	Organizations with distributed locations can easily access their ACC sites securely from anywhere on a browser or mobile device.
	Easy Remote Access	Remotely monitor multiple locations and cameras to quickly detect, verify and act on events.
Centralized Access	Cloud Connectivity to ACC Sites	Connect ACC sites to the cloud to converge media access, system management, and integrations.
	Tools for everyday operation	Access live and recorded video, create and view bookmarks, manage PTZ controls, and export videos to a local drive.
	Enhanced Situational Awareness	Provides timely and proactive responses to analytic alarms, sent from ACC software as push notifications directly to the ACC Mobile 3 app.
	Firewall Traversal	Firewall traversal enables secure remote access with minimal or no firewall reconfiguration.
Security	Federated Authentication	Centralize administration of user identities and use corporate credentials to access ACC, ACM and ACS software.
	Seamless User Provisioning	Provisioning users is simple, as existing ACC group privileges are inherited for web client or mobile app viewing.
	Real-time Awareness	Confirm the operational status of your deployment to prioritize site maintenance activities and optimize uptime across all system components.
System Health	Health Dashboard	Review a single health dashboard that rolls up the active status of all recorders and connected cameras.
Monitoring	Remote Configuration Access	Access configuration details of recorders and cameras across all cloud-connected ACC sites.
	Remote Site Upgrades	Push software upgrades remotely to one or more ACC sites simultaneously, ensuring all of your sites are always on the latest versions of ACC.
Technical	Compatible ACC Platform	ACC 7.10 or later is required to connect ACC sites to Avigilon Cloud Services.
Specifications	Compatible ACC Mobile Platform	ACC Mobile 3 App is required to support remote access via a mobile device and to receive analytic alarms from ACC.

KEY FEATURES

The ACS platform enables a modern cloud-connected user experience, accessible without installation from a web browser. It lays the foundation for ACC customers to connect to the cloud and take advantage of capabilities and features that provide centralized access across distributed systems.

Our platform provides for the delivery of value-add services, helping to improve your up-time, and enhance productivity, while also strengthening your security. The ACS platform simplifies the management of physical security systems for customers with multi-site facilities and distributed security systems from anywhere.

VIDEOMANAGER SOFTWARE

SUPPORTS VT100 & VB400 BODY-WORN CAMERAS

Browser-based system for management of users and devices as well as the managing, storing and sharing of digital evidence.

SPECIFICATIONS

	Granular Permissions	Users can only access the parts of the VideoManager interface which are relevant to their workflow.
	Granular Sharing	Incidents and videos can be automatically or manually shared between users and groups on VideoManager. Instances can be shared with workers who are not on VideoManager, using time-sensitive links or exports.
Workflow Control	Permissions Overview	Administrators can see permissions associated with a user, and how they got those permissions.
WOIKIIOW COILLIOI	Priviledge Escalation	Authorized users can temporarily elevate their priviledges for a limited time, in order to perform certain actions on VideoManager.
	Deletion Policies	Configure how long footage is kept on VideoManager before it is deleted.
	Automatic DockController Firmware Upgrades	Ensure your suite of DockControllers always have the latest firmware, eliminating manual upgrades. Configure a specific timeframe for DockController firmware upgrades, to minimize workflow disruption.
	Comprehensive Audit Trail	A comprehensive audit log of every action performed in the system is created. Users can create and download audit logs to view these actions if necessary.
Security	Access Control Keys	Without a device's access control key, undownloaded footage on a device is inaccessible.
	File Space Encryption	Footage, report and export filespaces are automatically encrypted for extra security.
	Bulk Edit	Large numbers of events can be instantaneously deleted or added to incident collections. Large numbers of body-worn cameras can be assigned or upgraded in parallel.
Scalability	User Groups	Put multiple users in a group for sharing and management purposes. Groups can be supervised by individual users, or other groups.
	Reports Creation	Download reports detailing various aspects of VideoManager activity e.g. when devices were docked and undocked.
	Live Statistics	View real-time statistics with information about how VideoManager is being used.
Technical	Compatible Server Platforms	Windows Server 2016 Essentials, Standard and Datacenter, Windows Server 2012 R2 Essentials, Standard and Datacenter, Windows Server 2012 Essentials, Standard and Datacenter, Windows 10 Pro and Enterprise and Windows 8.1 Pro and Enterprise
Specifications	Compatible Client Browsers	Microsoft Internet Explorer 11 (Windows 7/8.1/10), Microsoft Edge 14+ (Windows 10), Firefox 47+ (Windows 10), Chrome 48+ (Windows 7/8.1/10, MAC OS X v10.10)

CONNECTIVITY FEATURES

- Integrates with ACC video management software (via ONStream technology)
- Can be enabled as a central VideoManager, to which other instances of VideoManager ("sites") can be connected
- Connect VideoManager to CommandCentral Vault, for footage storage and correlation with other CommandCentral Suite applications¹
- · Group footage and other important media in an incident for ease of view

EVIDENCE PREPARATION FEATURES

- Put multiple incidents in an incident collection for sharing and management purposes
- · Redact footage and images using effects like bluring, pixelation and highlighting. Audio, text and zoom redactions are also available
- Non-video media (PDFs, MP4s, JPGs), and videos which were not recorded using VT100 or VB400 can be imported to VideoManager and added to incidents

¹ Requires CommandCentral Vault subscription.

The Motorola Solutions Access Control Manager (ACM) system is a physical access control system for enterprise-class installations, designed to help you focus on securing your people, property and assets, while giving you the flexibility to respond to alerts wherever you are. It seamlessly integrates with ACC software to provide you with a powerful and unified security solution that helps you proactively monitor and secure your sites.

ACM 6 SOFTWARE

Access Control Manager (ACM) is a physical access control system for enterprise-class installations, designed to protect people, property and assets with advanced alarm and identity management providing superior control of access to facilities. This 100% browser-based solution offers the flexibility to respond to alerts from anywhere. ACC unification offers a powerful end-to-end security solution to monitor and secure sites.

DETAILS

	Integrated Badging	Ability to design and print badges from within the ACM Browser.
Identity Management	Collaborations	Collaboration provides the ability to exchange data between the access control appliance application and a large number of other database types (e.g., LDAP, SQL Server, Oracle RDBMS, CSV imports, Generic XML, REST API Tools).
	Identity Correlation Report	Contact tracing tool to help verify identities that may be at risk by having close contact with infected individuals.
	Event Correlation & Alarm Monitoring	Alarm management workflow, with visual representations of alarms using color-based priority indicators, audible alerts, the ability to view live and recorded video, append notes, receive instructions, acknowledge and clear alarms.
Alarm	Integrated Video & Mapping Interface	Automated alarms generated by ACM can be viewed on a map and linked to the associated live or recorded video stream from ACC software.
Management	Email Notifications	Receive automatic email notifications of access control events.
	Identity Mustering	This interactive tracker can pinpoint missing personnel quickly with a real-time visual display of where people are at all times based on their badging activity.
	Controllers & Sub-Panels	Protect and future-proof your access control investment by using open-field hardware from leading manufacturers.
	Intrusion Detection	Integration to intrusion detection systems to automate the management and control within the ACM system.
Open-Field	Wireless Locks	Integration with leading third-party wireless lock vendors.
Hardware Support & Integrations	Biometric Readers	Integration to biometric fingerprint reader technology.
	pivCLASS	Integration with HID® pivCLASS® technology when implemented in an HSPD-12 environment requiring FIPS 201-2 evaluation program approval.
	Video Security	Unification with ACC software and integration with other third-party video management software to better inform responses with video context.
	Turnkey Operation	Easy installation experience with server appliances that are ready to go the moment you plug them in.
	Templates	Wide selection of easy-to-use templates for doors and wiring for faster configuration.
	Customized Reporting	Pre-defined, ready-made reports that can be customized to display important access control data.
Easy to Use & Deploy	Peer-to-Peer Replication	Patented technology that allows for replication of identity data on multiple appliances across many sites. This embedded technology requires no additional software or hardware and simplifies identity management, promotes consistency of identity data and reduces data entry efforts.
	Scalable Deployment Model	ACM appliances allow you to start with what you need on individual appliances, then expand by adding doors and replicating to additional appliances as your organization grows.
	Mobile App	ACM Expedite provides quick and easy access to pre-configured global actions, allowing operators on-the-go to swiftly perform daily operations such as unlocking a door, and responding to critical events such as a sitewide lockdown – all from their mobile device.

KEY FEATURES

The Motorola Solutions Access Control Manager (ACM) system is designed to keep your focus on securing people, property and assets, and maximize your time by helping you respond immediately to alerts wherever you are. The ACM[™] system is 100% browser-based, requiring no software installation. Deploying hardened linux-based appliances, we use open-field hardware to leverage a breadth of standardized products from trusted manufacturers for

different solutions to uniquely fit customer needs. It also supports third party integrations through our RESTful API. The ACM system leverages an open architecture, integrates identity management and video surveillance such as ACC video management software and achieves a high level of scalability with a low cost of ownership. It delivers a ready-to-deploy solution that provides the performance you expect from an enterprise-class solution.

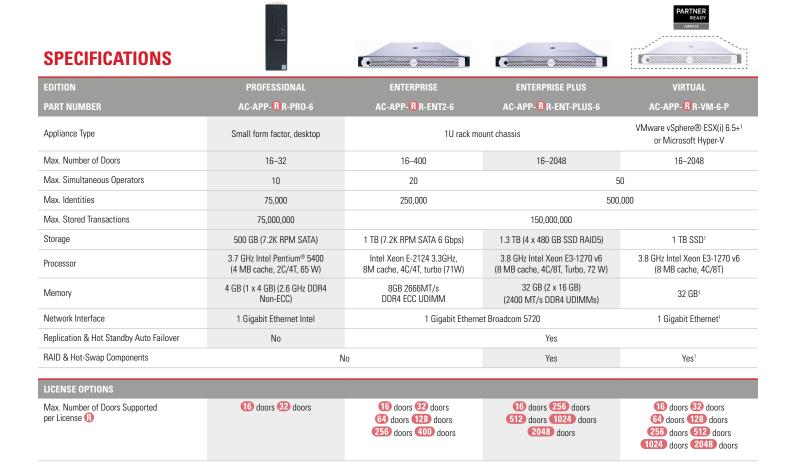

ACM 6 SYSTEM

Designed to help you focus on securing your people, property and assets, while giving you the flexibility to respond to alerts wherever you are.

STANDARD FEATURES

- · Quick online license management
- Email notification
- · Event monitoring and schedules
- Identity search, import/export and management
- Panel and door status
- · Preconfigured and custom reports
- Firmware updates
- OSDP In/Out door support
- Backup and restore

- PoE compatible Mercury hardware
- Migration from ACM Embedded Controller
- Mercury and HID hardware interoperability
- · Software integrations (video, intrusion, wireless locks and visitor management)
- · Biometric integrations
- Support for Mercury Security large encoded card formats

- · Graphic maps and muster dashboard
- Photo import/export
- · Alarm management andacknowledgment
- Badging
- Multi-language
- System configuration templates for doors, wiring, input and output, to enable quick Batch Add setup
- Mercury Security panel certificates for added security
- GSA approved products list

CONTROLLERS & SUB-PANELS

With hardware options for small to enterprise level systems, deploying and managing your ACM system has never been more intuitive and flexible as it is today.

DETAILS

MODEL NAME	CONTROLLERS
	AC-MER-CONT-LP1501
DADT MUMADED	AC-MER-CONT-LP1502
PART NUMBER	AC-MER-CONT-LP2500
	AC-MER-CONT-LP4502
Features	Manage 1 to 64 readers per controlle

Enhanced data security with embedded crypto memory chip

Flexible installation for different environments with PoE, PoE+ or RS-485 connectivity

Expand I/O and readers by simply adding input, output and reader interface modules

INTERFACE MODULES

AC-MER-CON-MR52 AC-MER-RIM-MR62E

Low-cost and high-performance for all door interface needs

Manage multiple door openings with auxiliary point control and monitoring

Provide access control and security monitoring using any of the Mercury controllers connected to the ACM system

Enhanced data security with embedded crypto memory chip

I/O MODULES

AC-MER-CON-MR16IN AC-MER-CON-MR16OUT

Monitor high concentrations of inputs and outputs with the ACM system

Compact footprint and RS-485 connectivity

Capable of supporting 16 general-purpose dry-contact inputs or 16 relay outputs

Supports being clustered or distributed to suit the installation environment

READERS & CREDENTIALS

The ACM system offers trusted and secure door readers and multipurpose credential options to keep security at the forefront of your facility.

Features

Detect fingerprints quickly and accurately and discern fake biometric attempts for high security environments

Easily set-up and manage biometric identities directly from the ACM system

Get real-time visibility into current risk position and reduce unauthorized access

Multipurpose card reader to suit different installation environments

Offers secure communications by utilizing the latest authentication through the Secure Identity Object (SIO) data model

Purposefully designed for the ACM system

> Advanced 56-bit format provides multiple levels of security

Highly versatile with support for the widest range of credential technologies, including HID Mobile Access

Ultra secure storage of cryptographic keys on certified secure element hardware

Includes out-ofthe-box support for Open Supervised Device Protocol (OSDP) for secure bidirectional communication

Leverages advanced Seos credential technology by HID Global, allowing seamless migration to a higher standard of security and functionality

Advanced 56-bit format provides multiple levels of security

Available in logo card, non logo card or FOB

READERS & CREDENTIALS

The ACM system offers trusted and secure door readers and multipurpose credential options to keep security at the forefront of your facility.

Features

Fnables smartphones to be the access credential with a secure smartphone wallet app

Readers read Conekt BLE mobile credentials as well as traditional physical credentials

Supports industry standard and custom formats

Enhanced smartcard encryption and optional DESFire EV1 and EV2 support

Supports industry standard interfaces

Based upon the world-standard MIFARE technology, ideal for ISO14443 applications

Installs indoors or outdoors

Exceptionally long read range-up to 200 ft (61 m)

Ideal for parking facilities, gated communities, marinas and more

Supports industry standard electronic access control interfaces

Vandal-resistant with thick polycarbonate material, epoxy potted electronics and tamper proof screws

Suited for schools, inner-city environments, correctional facilities, or where heavy machinery is operated

Vandal-resistant with stainless steel built and reinforced with a bullet-resistant Shot Blocker insert and tamper proof screws

Suited for schools, correctional facilities, housing authorities, and where heavy equipment is operated

Outstanding read range and excellent read speed

Mounts to most surfaces, including metal

Installs indoors or outdoors

Supports industry standard interfaces

READERS & CREDENTIALS

The ACM system offers trusted and secure door readers and multipurpose credential cards to keep security at the forefront of your facility.

DETAILS

MODEL NAME	SCHLAGE MOBILE ENABLED MULTI- TECHNOLOGY READERS	SCHLAGE MULTI- Technology readers	SCHLAGE SMART CARD READERS	SCHLAGE Proximity Readers	SCHLAGE Wireless Readers	SCHLAGE ENROLLMENT READERS
PART NUMBER (READERS)	AC-SCH-READER- MTB11 AC-SCH-READER- MTB15 AC-SCH-READER- MTKB15	AC-ING-READ-APTIQ- MULL-MT11 AC-ALL-READ-APTIQ- OSDP-MULL-MT11-485 AC-ING-READ-APTIQ- SNG-MT15 AC-ALL-READ-APTIQ- OSDP-SNG-MT15-485 AC-ING-READ-APTIQ- KEYPD-MTK15 AC-ALL-READ-APTIQ-OSDP- KEYPD-MTK15-485 AC-ALL-READ-APTIQ- WIEGAND-MTMSK15	AC-ING-READ-APTIQ- Mini-SM10	AC-ING-READ- XCEEDID-PROX AC-ING-READ- XCEEDID-PROX-C	AC-ALL-SCH- WPR400-MT	AC-ING-READ- APTIQ-ENROLL-MT20

Features

Eases the transition from existing proximity systems to secure encrypted card technologies or mobile solutions

Supports Schlage Mobile Access Credentials (BLE) and Near Field Communication (NFC)

Offers support for Apple's Enhanced Contactless Polling (ECP) for Apple Wallet and Google Pay credentials

Recognizes magnetic stripe, proximity, Schlage smart card and NFC-enabled smart devices

Works with industry standards and common access control system interfaces

Sleek. compact and cost-effective for high-security applications

Mini-mullion design is ideal for installation in tight spaces

Meets applicable ISO standards to integrate with many access control systems

Mutually authenticated in communication between the card and reader for optimum security

Sleek, compact and cost-effective for applications requiring lower security

Mini-mullion design is ideal for installation in tight spaces

Recognizes most industry leading 125 kHz proximity credentials

Easily integrates into existing legacy proximity systems and are compatible with new installations

Quickly extend a facility's access control to remote locations

Battery-operated device that can be handheld or placed in a temporary location for credential verification

LED indicator visually confirms credential verification or rejection

Utilizes the same credential reader modules offered with an AD Series lock

Simplifies enrollment of smart and multi-technology credentials in "No-Tour" multifamily applications

Program encrypted credentials, such as a keyfob, over Wi-Fi or USB connection to PC

When presented at a lock by the user, the pre-programmed credentials automatically update the lock database

For full list of part numbers including credentials, contact your <u>local sales representative</u>.

POWER SUPPLIES

High-efficiency, cost-effective power supplies from LifeSafety Power and Elmdene provide all the power needed for up to 16-door applications.

AC-SCH-RU-VOND-3-47258681 AC-SCH-RU-VOND-4-47258682 AC-SCH-RM-VOND-3-47258683

Features

Upgrade to new technologies without taking locks off the door

Cylindrical, mortise, mortise deadbolt and exit trim chassis options

Built-in credential reader and access control sensors for simplified installation

FIPS 201-2 compliant

Standard IP addressable intelligent controller for up to 16 AD Series wireless devices

Manage up to 240,000 cardholders and 50,000 transactions in memory

PoE compliant to IEEE 802.3af

Affordably extend electronic access control deeper into your facility

AC-SCH-NDE-CUSTOM

Packaged with credential reader and access control sensors for simplified installation

LE mortise locks can be ordered with LED indicator, interior push button (IPB) or deadbolt for tailored applications

NDEB cylindrical locks can be ordered with IPB to extend the lock to include storeroom, office, privacy and apartment applications

Designed for multifamily residences

Allow residents to gain access using a smart credential or their smartphone

Eliminate the cost and hassle of keys

Available as a deadbolt or interconnect lock

Provide greater perimeter security for K-12 schools

> Fnable remote undogging and door status monitoring

Modular kit retrofits existing 98/99 and 33A/35A series devices

LEARN MORE

Not all wireless locks products are available in all regions, please contact your local sales representative to confirm availability

WIRELESS LOCK INTEGRATIONS

The ACM system seamlessly integrates with third-party wireless locks for you to combine all of the components of an access controlled door into a simplified all-in-one system that saves time and costs.

DETAILS

Available in the United States and Canada only.

FEDERAL GOVERNMENT SOLUTIONS

The ACM system is FIPS 201-2 compliant and is a certified solution on the GSA Approved Product List (APL), meeting the Personal Identity Verification (PIV) requirements mandated for U.S. federal employees and contractors. Customers can conveniently and reliably purchase all components of this fully compliant, GSA-approved FICAM solution directly from Motorola Solutions.

BIOMETRIC SOLUTIONS

The integration of ACM with ViRDI's biometric fingerprint reader technology provides further safeguards to high security environments with an extra form of identification.

DETAILS

MODEL NAME	VIRDI ENROLLMENT USB Fingerprint reader	VIRDI IP65 FINGERPRINT SMARTCARD READER WITH KEYPAD	VIRDI IP65 FINGERPRINT SMARTCARD READER
PART NUMBER	AC-VT-READ-BIO-USB-FOH02-SC	AC-VT-READ-BIO-RFID-AC5000SC-BLK-NA	AC-VT-READ-BIO-RFID-AC2000SC-NA
Features	Seamless integration between VIRDI's Biometrics Enrollment Manager interface and ACM to add and remove biometric identities	Seamless integration between VIRDI's Biometrics Enrollment Manager interface and ACM to add and remove biometric identities	Seamless integration between VIRDI's Biometrics Enrollment Manager interface and ACM to add and remove biometric identities
	Easily set-up and manage biometric identities directly from ACM	IP65 rating for dust and water resistance	Secure and convenient access with Bluetooth and VIRDI's UNIS B plus mobile application
	Authenticate individual using one-to-one biometric verification	OSDP compatible with ACM controllers integration	IP65 rating for dust and water resistance
		Simplify operation with graphic UI and customizable 2.8" Color TFT LCD background	OSSP compatible with ACM controllers integration

VISITOR MANAGEMENT

ACM integrates with HID Global's EasyLobby Secure Visitor Management software, which allows organizations to automate the entire process of registering a visitor, printing a badge and capturing detailed information in seconds by simply scanning an ID.

DETAILS

MODEL NAME **PART NUMBER**

Features

AC-HID-EL-96000-SVM10

EasyLobby visitor records are automatically updated to ACM with identity information

Streamlines enrollment with pre-registration or self-registration options

Improves security by identifying who is in a facility quickly and accurately, especially in emergency situations

Conduct analysis and reporting on visitor data, quickly and easily HID GLOBAL SNAPSHELL PASSPORT SCANNER

AC-HID-EL-SS-PASSPORT

Works together with EasyLobby to improve the efficiency of identity registration

Auto data capture and use of camera-based technology help provide quicker onboarding procedures

HID GLOBAL SNAPSHELL LICENSE CARD SCANNER

AC-HID-EL-CSS-R3

Leverages Optical Character Recognition (OCR) to read driver's licenses and ID cards quickly and accurately

Easy-to-use with no moving parts and compact design takes up minimal counter space

ASSURETEC ID-150 CARD SCANNER

AC-HID-EL-AST-ID150

Reads and verifies identity documents such as driver's licenses and IDs quickly and accurately, including the photo

DYMO 450 TURBO THERMAL

AC-HID-EL-DYMO-450T

Prints temporary badges for increased security and visibility of visitors

Eliminates the cost of ink or toner with direct thermal printing technology

INTRUSION PANELS INTEGRATION

Centrally monitor and control Bosch intrusion panels and access events from the ACM system for visual verification of alerts and faster responses. Operators can arm and disarm panels by area, set-up and assign passcode groups to identities, configure the system to send access events to the central monitoring service and more.

DETAILS

MODEL NAME	BOSCH INTRUSION INTEGRATION
PART NUMBER	AC-SW-LIC-BOSCHINTR-1PANEL-6-P
	AC-SW-LIC-BOSCHINTR-10PANEL-6-P
Supported Panels	Mid-range: B3512, B4512, B5512, B6512 Commercial: B8512G, B9512G, D9412GV4 V2, D7412GV4
Features	Colour graphic touch screen display for easy operation
	Built-in presence detector lights the display when user approaches keypad
	Built-in proximity reader allows use of a token or card as replacement for a passcode, or for use with dual authentication for high security areas
	Four inputs and one output provide cost effective expansion
	ACM integration enables quicker verification of intrusion events via live video triggers
	No additional access hardware or wiring required — connects to IP networks

ACM VERIFY VIRTUAL STATIONS

ACM Verify allows any browser-enabled smart device to act as a virtual station. It works by recording and confirming an individual's identity using a PIN code, enabling you to extend the capability of your access system to locations where physical access doors are not feasible.

DETAILS

Features

MODEL NAME **ACM VERIFY** AC-SW-LIC-AVO-VER-5VS-6-P AC-SW-LIC-AVO-VER-16VS-6-P

Device pairing allows you to easily link a device to a virtual station for greater security

Verify profiles by comparing a person's appearance with a saved database image

Send verification events to ACM and view a list of recorded personnel at each virtual station

Activate global actions from events generated by virtual stations

Enable or disable virtual stations from ACM

Suited for sites that do not have access controlled doors or locks such as outdoor mustering stations for fire drills, a bus for school trips or a work area in an open-plan office
