

# ASC367W

**Sirena con flash para montar en techo. Base alta. Blanca con lente roja.**

## General

---

The ASC367W is a WHITE, general purpose, ceiling mount, electronic sounder and beacon for fire alarm applications. It features a special base containing all wiring connections allowing for easy placement or removal of the device. With an EN54-23 approved coverage pattern of C-3-8.9 for the beacon, each ASC367W may be mounted up to 3m high and provide a 8.9m cylinder diameter coverage. A room size of 6.3 x 6.3m square room may therefore be covered with a single device.

## Easy and Fast Installation

---

The ASx360 series alarm sounder/beacons allow faster installation and maintenance thanks to an innovative mounting base. Dispensing with the need for locking screws these devices use TimeSaver™ bases from the 630 series detector lines. Heads are simply locked onto the base with a “twist and click” action, allowing fitting or removal at any time because the base is the only component that needs to be wired. As the cabling requirement is reduced, commissioning time and costs are naturally reduced as well.

## Efficient and versatile

---

The ASx360 series sounders provide high sound output at a low current, thus reducing power requirements and system cost. They are supplied with a volume control as standard, allowing final audio adjustments to be made during installation. With a choice of 32 different tones (see tones table in manual), which are switch selectable, the required tone can be selected during installation.

The ASx360 series beacons utilise a specially designed lens giving a uniformed light output over the specified coverage area.

The mechanism for locking the device to the base may be activated if required. Once activated, a special tool is required to remove the sounder from the base.

## Details

---

- High sound output with Pulse Alert™ technology
- 32 Tones user selectable
- Automatic synchronisation
- Volume control and adjustable flash rate
- Anti-Tamper locking mechanism
- Deep mouting base with side cable entry and wiring to the base
- Weatherproof
- Seperate sounder and beacon and control
- EN54:3 and EN54:23 approved, CPR Certified

# ASC367W

Sirena con flash para montar en techo. Base alta. Blanca con lente roja.

## Technical specifications

### General

Monitorización de línea Polarised input

### Eléctrico

Voltaje de funcionamiento 17 to 60 VDC

### Sirena

Tonos seleccionables 32

### Físico

Dimensiones físicas 97.5 x 117 mm (Ø x D)  
Peso neto 215 g  
Color Blanco  
Material Policarbonato de alto impacto

### Medioambiental

Temperatura de funcionamiento -25 to +70°C  
Humedad relativa 5 to 95% noncondensing  
Entorno Interior, Exterior  
Clasificación IP IP65

### Estándares y regulaciones

Certificación EN54-23, EN54-3

### Operation

Continuous

### Current consumption

Sounder 5.1mA  
Beacon 20mA @ 0.5 Hz  
40mA @ 1 Hz

### Sound output @ 1 m (tone dependant)

85 to 97dB(A)

### Automatic synchronisation

Phased start

### Flash colour

Red

### EN54-23 rating

Light coverage C-3-8.9  
Mounting position Ceiling  
Mounting height up to 3 m  
Floor coverage up to 8.9 m diameter

### EN54-23 Coverage: C-3-8.9
